Others     Note: Others such as Local Authorities industries, individuals and the community		96.51%

# THE KNOWLEDGE OF CLIMATE CHANGE

Individual efforts won't have any impact. There's no point in doing anything.

I lack experience and knowledge of climate change. I am not in a position to discuss its solutions.

I am aware of climate change issues, but I am unsure how to get involved.

	TRONGLY	DISAGREE	AGREE S	STRONGLY	
	63.4%	27.9%	5.1%	3.6%	
	41.0%	46.5%	10.5%	2.0%	
n	8.4%	15.6%	53.3%	22.7%	

## THE STEPS TO COMBAT CLIMATE CHANGE

i. Eco-friendly practices such as conserving energy and water

ii. Law enforcement iii. Tree planting

# THE MOST PRESSING ISSUE WHEN CONSIDERING CLIMATE CHANGE

### THE SUGGESTIONS FOR ADDRESSING CLIMATE CHANGE

- Reducing logging activities
- Use of renewable energy
- Practicing green and ecofriendly technology
- Low-carbon growth and sustainable development
- Enhancing relevant policies

- Tree planting and forest conservation
- Adopting a sustainable way of life
- Education and awareness campaigns on green practices
- Intensifying green economic growth
- Enhanced legal enforcement
